LeetCode / GeeksForGeeks

EXPERIENCE

- **Smartsevak Technologies** Jaipur, Rajasthan
Senior Full Stack Developer May 2024 - Present
 - **Product Engineering & Platform Development (Telecare, Call Tracking, AI Analytics, Live Chat):**
 - * Built a multi-role telecare consultation platform (doctor/patient/moderator) using Next.js + Zoom SDK, increasing telehealth revenue by **18%** and reducing no-shows by **40%**.
 - * Designed and integrated an external-dialer-based call tracker system using webhook-driven event ingestion, improving sales attribution accuracy by **12%**.
 - * Engineered an AI Audio Analytics system as an extension of the call tracker—auto-transcribing calls, generating AI summaries, and producing daily/monthly actionable insights for organizations.
 - * Developed a real-time Live Chat system using Firebase, enabling agents to communicate instantly with leads/customers directly from the dashboard, with read receipts and multi-agent routing.
 - **Real-Time Systems, Performance & Infrastructure (Node.js, Redis, WebSockets, SQS, Worker Threads):**
 - * Implemented Redis caching for real-time lead filtering and instant retrieval, reducing dashboard load times by **70%**.
 - * Integrated WebSockets across leads, bookings, AI analytics, and call-flow modules to deliver real-time updates across the organization dashboard.
 - * Built a fault-tolerant bulk import/export system using AWS SQS + Worker Threads, improving data processing throughput by **60%**.
 - * Built automated daily performance insights combining email reports with AI-generated WhatsApp summaries, improving client engagement and retention by **18%**.
 - **Analytics, Dashboards & Marketing Automation (MongoDB, PostgreSQL, WhatsApp APIs):**
 - * Developed an ad click-to-conversion attribution pipeline (Facebook/WhatsApp) using SQS + webhooks, increasing campaign ROI visibility by **20%**.
 - * Built medication adherence dashboard with OTP verification and cron-driven reminders, improving treatment compliance by **45%** and driving a **25%** user base increase.
 - * Rebuilt WhatsApp Business API UI and onboarding flow to significantly reduce integration failures and onboarding time.
- **Datansh Solutions** Jaipur, Rajasthan
Software Development Intern Aug 2023 - Sept 2023
 - **Front-end & HRMS Development:** Developed React.js interfaces and authentication flows for an internal HRMS platform. Enhanced workflow automation through low-code modules and reduced administrative overhead by **30%**.
 - **Database Management:** Improved SQL Server query efficiency and standardized schema practices, contributing to a **40%** improvement in data retrieval operations.

PROGRAMMING SKILLS

- **Languages:** JavaScript, TypeScript, C/C++
- **Frontend:** React, Next.js, Redux, Tanstack Query, Chakra UI, Material-UI, Tailwind CSS
- **Backend:** Node.js, Express.js, Socket.IO, Firebase, REST API
- **Databases & Tools:** MongoDB, PostgreSQL, Redis, AWS (SES, SQS), Prisma, Sequelize
- **Testing:** Jest, Mocha, Chai
- **Professional Skills:** System design thinking, product ownership, cross-functional collaboration, rapid prototyping

PROJECTS

- **Sociopedia:** Full stack social platform using React.js, Node.js, Express.js, MongoDB, and Redux Toolkit with responsive Material UI-based design. Github
- **Chit-Chat Connect:** Real-time chat application using React.js/Chakra UI with Node.js/Express.js backend and WebSocket-based communication for instant messaging and activity indicators. Github

ACHIEVEMENTS

- **Problem Solving:** Solved 400+ problems across coding platforms and maintained a 100+ day LeetCode streak.
- **Mentorship:** Guided 10+ students in securing internships and placements through hands-on project mentoring.
- **Certification:** Software Development Essentials Certificate from LinkedIn Learning.

EDUCATION

- **Global Institute of Technology** Jaipur, Rajasthan
Bachelor of Technology in Computer Science (B.Tech CSE); CGPA: 7.77 *Oct. 2020 – May 2024*
